SUMMARY

A skilled full stack Java developer with +3 years of hands-on experience in designing, modifying, developing, testing, implementing java web applications, and enterprise solutions. I am very interested in the field of software development, and I would appreciate the opportunity to move forward in this field with a great team in a progressive environment.

EDUCATION

College: BSc. in CS, Faculty of Computer and Information Menofiya University, 2018, Very Good Degree.

EXPERIENCE

Full Stack Java Developer at Segmatek (Sep.2020 – Present)

- My responsibilities included architecting, designing, developing of both frontend and backend services. I worked on building multiple services from scratch using Spring stack and Angular.
- fix client issues & working through timelines with maintaining quality and lifecycle of the project.

Full Stack Java Developer at Spectraflare (Sep.2021 – Present)

- My responsibilities included architecting, designing, developing of both frontend and backend services. I worked on building multiple services from scratch using Spring stack and Angular, JavaFX.
- fix client issues & working through timelines with maintaining quality and lifecycle of the project.

Java Backend Developer at Senior Steps (Jan.2020 – Jun.2020)

- Implement new services using Servlets , JSP , JSTL , Basic JSF , Hibernate , Web Service (RESTful API, SOAP Web Service)
- Spring Core , Spring Data , Spring MVC , Spring RESTful API , Spring Boot , Mysql, Design Pattern , Solid principles
- fix client issues & working through timelines with maintaining quality and lifecycle of the project.

Android Developer Internship (Jun.2018 – Oct.2018)

- Customizing , modifying standard modules Develop the Project structure and fixing bugs

Java Developer Internship (Jul.2017 – Sep.2017)

- Learning and practicing java, design patterns, data structures and algorithms in real world apps

SKILLS

Experienced In: Java (SE/EE), Hibernate/JPA, Spring Core, Spring MVC, Spring Boot, Spring Data, Spring Cloud, Spring Security, Docker, Jenkins, JSF/ PrimeFaces,, JSP, Angular 2+, HTML/CSS, SQL, NOSQL, MySQL, Oracle DB, MongoDB , Redis, Git, Jenkins, Maven, RESTful, JavaScript, Flyway.

Software Engineering: OOP, MVC, Microservices, Design Patterns, Database Design.

Languages: Very Good English. Native Arabic.

PROJECTS

E-Care –Telecom Egypt (WE).

- It's a telecommunication e-care system for telecom Egypt .
- We revamp its frontend with new angular structure and design.

- ☐ Updated and added new features in backend.
- ☐ I was involved as full stack developer.
- ☐ Technologies: Spring Boot, Spring Data, Spring REST, Spring Security, JPA, Oracle DB, angular11.
- ☐ The link of the project online [Login \(te.eg\)](#)

E-Care – Mali (Malittel):

- ☐ It's a telecommunication e-care system for Malittel in Mali,
- ☐ User can recharge, see call history, view the consumption, subscribe to offers and services and do other different telecom-related functionalities.
- ☐ I was involved as full stack developer.
- ☐ Technologies: Spring Boot, Spring Data, Spring REST, Spring Security, JPA, Oracle DB

PharmaClinic:

- ☐ It's a pharma clinic system for to serve the doctor and the patient,
- ☐ The system manage the appointments, invoices, history of the doctor and the patient,
- ☐ I was involved as full stack developer.
- ☐ Technologies: Spring Boot, Spring Data, Spring REST, JPA, Oracle DB, Angular, Java FX

Ordering Food App :

- ☐ Application for ordering food online like otlob. The project consists of 3 application:
 - ☐ Consumer app: mobile app and web app.
 - ☐ Provider app: a web app.
 - ☐ Admin app: a web app.
- ☐ I was involved mainly in the backend.
- ☐ Technologies: Servlet, Jsp, Hibernate, Spring Boot, Spring Data, Spring REST, JPA, MySQL DB .
- ☐ **GitHub Repository :** https://github.com/Mostafa-Belal2/Ordering_food_online_web_App.

StoreApp :

- ☐ Application for buying and selling of products.
- ☐ I was involved mainly in the backend here as the front was mainly mobile-based.
- ☐ Technologies: Spring Boot, Spring Data, Spring REST, JPA, MySQL DB .
- ☐ **GitHub Repository :** https://github.com/Mostafa-Belal2/springboot_storeapp.
